TO OUR VALUED CUSTOMERS

Who have so largely given us their confidence and support in the past, thus contributing to our continued and steady success, and to those whose patronage we hope to secure, this second edition of our descriptive Catalogue of **MANUFACTURED WOODWORK** is respectfully submitted.

After having carefully considered the advisability of introducing new designs into the same, we have decided that such a course would lead to the confusion which usually follows the alteration of catalogue numbers, and, as the subjoined designs are quite modern, we have decided to make no alterations in this second edition, so we trust that it will continue to convey to the building public an idea of the high-class work which we are able to produce at our extensive mills, and also be of use in enabling those designing and building property to obtain **THE BEST VALUE FOR THEIR MONEY**, and to depart from the old fashioned stock lines (which are obsolete and out of accord with the progress of modern building requirements).

We are pleased to announce that the measure of success which has attended our efforts has justified us in extending our thoroughly up-to-date **SAW MILLS** and **JOINERY WORKS**, and greatly increasing our plant of English and American Machinery, embodying the latest types; consequently we claim to be in a position to carry out orders entrusted to us in a manner alike creditable to ourselves and satisfactory to our esteemed clients. It might not be out of place to mention here that we have installed a Door Manufacturing Plant that will entirely exclude imported doors from this market, thus finding employment for our own mechanics and machinery, and we especially solicit your support in this connection. A special feature of our establishment is a **PATENT HOT-AIR DRYING KILN** for the thorough seasoning of all timbers required to be so treated, thus insuring the **NON-SHRINKAGE OF WORK**, also a great reduction of weight—the former essential to all good finishing work, the latter a great saving in freight to country buyers.

Our stocks comprise **TIMBER**, **JOINERY WORK**, **MOULDINGS**, Skirtings, Architraves, Turnery, Mantelpieces, Glass, Cement, Galvanized Iron (best brands), Ironmongery, and **GENERAL BUILDERS' SUPPLIES OF EVERY DESCRIPTION**. We are also extensive Manufacturers of **DETAILED JOINERY** and **WOODWORK** generally, our long experience and personal supervision enabling us to offer unequalled facilities in this department.

We also stock and supply **WEATHERBOARD COTTAGES** in a great variety of designs, for local use, also for export to the Islands. All framed up, numbered, and forwarded in sections, ready for erection (if necessary without aid of skilled labour). Plans and detailed specifications furnished on application.

WHEN ORDERING from this Catalogue kindly give the **NUMBER** of the article required, also the exact size and quantity, and full forwarding instructions. **ORDERS**, however small, will receive the same careful attention and prompt despatch as a truck load. **ENQUIRIES SOLICITED** and all Correspondence answered by return mail.

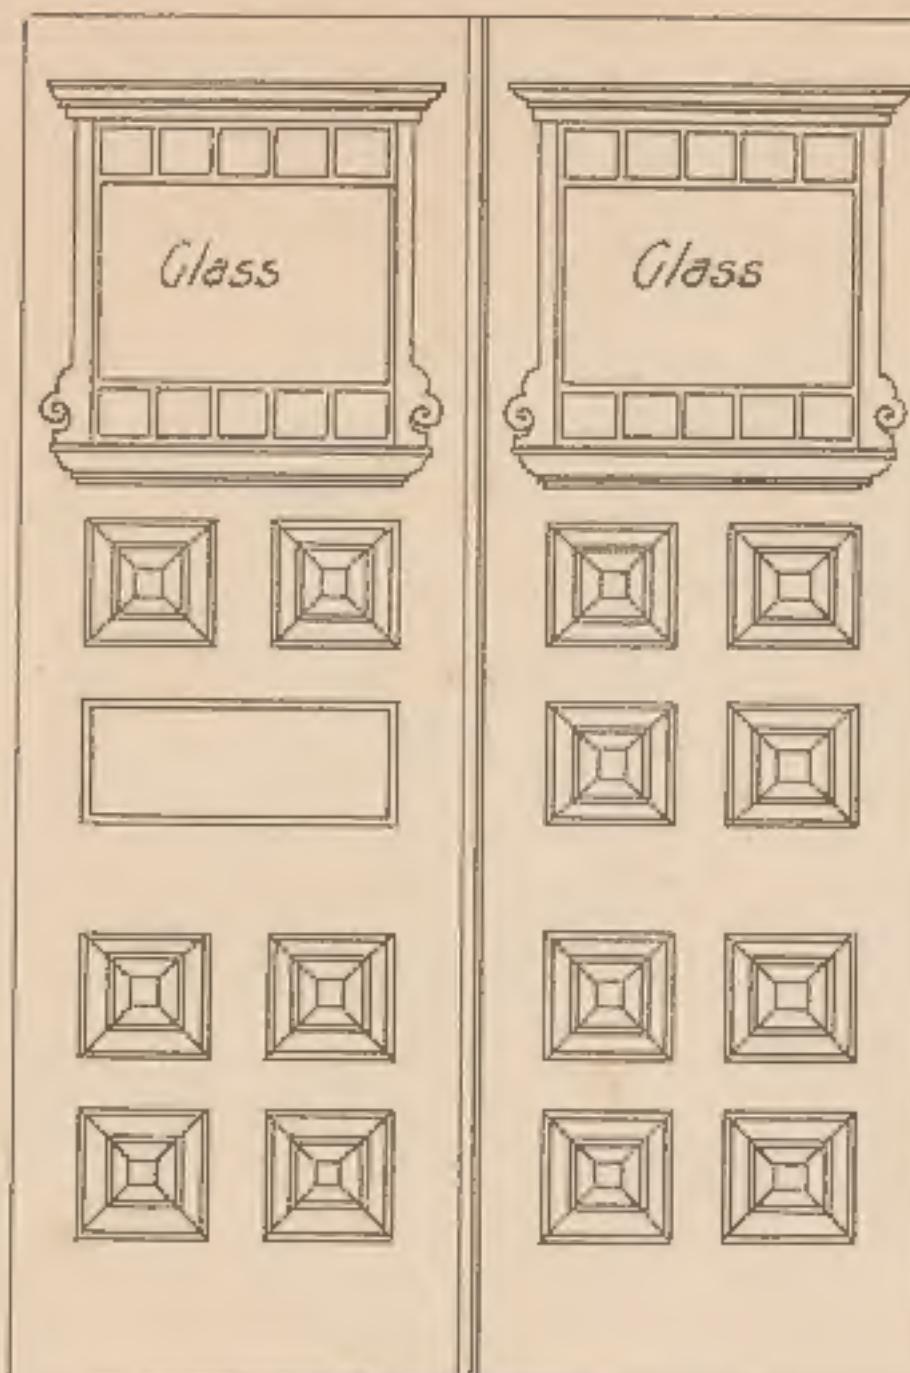

FOR PRICES of Stock Lines and Terms see our **MONTHLY LISTS**. **SPECIAL QUOTATIONS** given for other lines on receipt of particulars.

Yours respectfully,
